Comments

Thanks for Coming to North Dakota! We Appreciate it.

(1) Crop Insurance in the Farm Bill — Reinforce & enhance Crop Insurance in the "new" Farm Bill. Crop Ins has improved as to provide a good Risk Management Tool. Please Keep the Farmer Premium Subsidy in Place. It Could even be increased on the Buy Up Levels @ 70-75-80-85% Levels of Coverage.

Move away from ad hoc Disaster when Crop Ins is Available. Reward those of us who Purchase Crop Ins — We do pay a premium
