CSP Ken Grecian

1. Shorten Contract lengths or make them yearly and outcomes based for payments because it is difficult to gain 5 or 10 year leases.

2 Producers can only participate in one contract. It should be allowed on more than one to allow more more leased land to be enrolled in CSP contracts.

3 CSP does not work on grass land it is pushing rents higher and it never comes down. Put the money into ~~[illegible]~~ EQUIP or other programs to help us to net the most ~~[illegible]~~ Profit from the land.
