Dear Sirs;

Mike Johanns was at a farmers hearing at Lubbock, Tx, recently to discuss farm programs. I didn't attend for two reasons. First, Lubbock is 60 miles away. Also, big farming with big gov't supports & payments is so popular among many farmers that one could be ostrasized for speaking in opposition.

I believe no family should get even $250,000 as the adm. proposed. And the success of getting anything through separate entities has been a shame all along. The 5% cut otherwise would have ~~bee~~ been good also.

I am a 78 year old semi-retired farmer and I'm concerned

2..

about our country's future (especially economically). Would that this ag pork along with other buying of votes could be curtailed & the USA get on a firm financial footing.

Sincerely,
Henry Vogler
