(over)

1. Move towards a crop insurance safety net and away from LDP's DCP programs.

2. Consumers need to realize the Farm Bill will provide a "safetynet" for producers and also help enhance our conservation efforts and the protection of our environment

3. Expand farmland protection programs (i.e. Conservation Easements)

4. Why does Congress want to cut dollars for the USDA and at the same time fund a $454 million dollar bridge in Alaska in Rep. Don Young's district?
