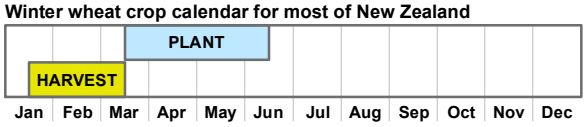
New Zealand: Wheat

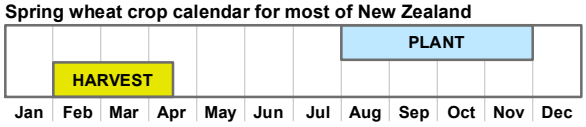
United States Department of Agriculture

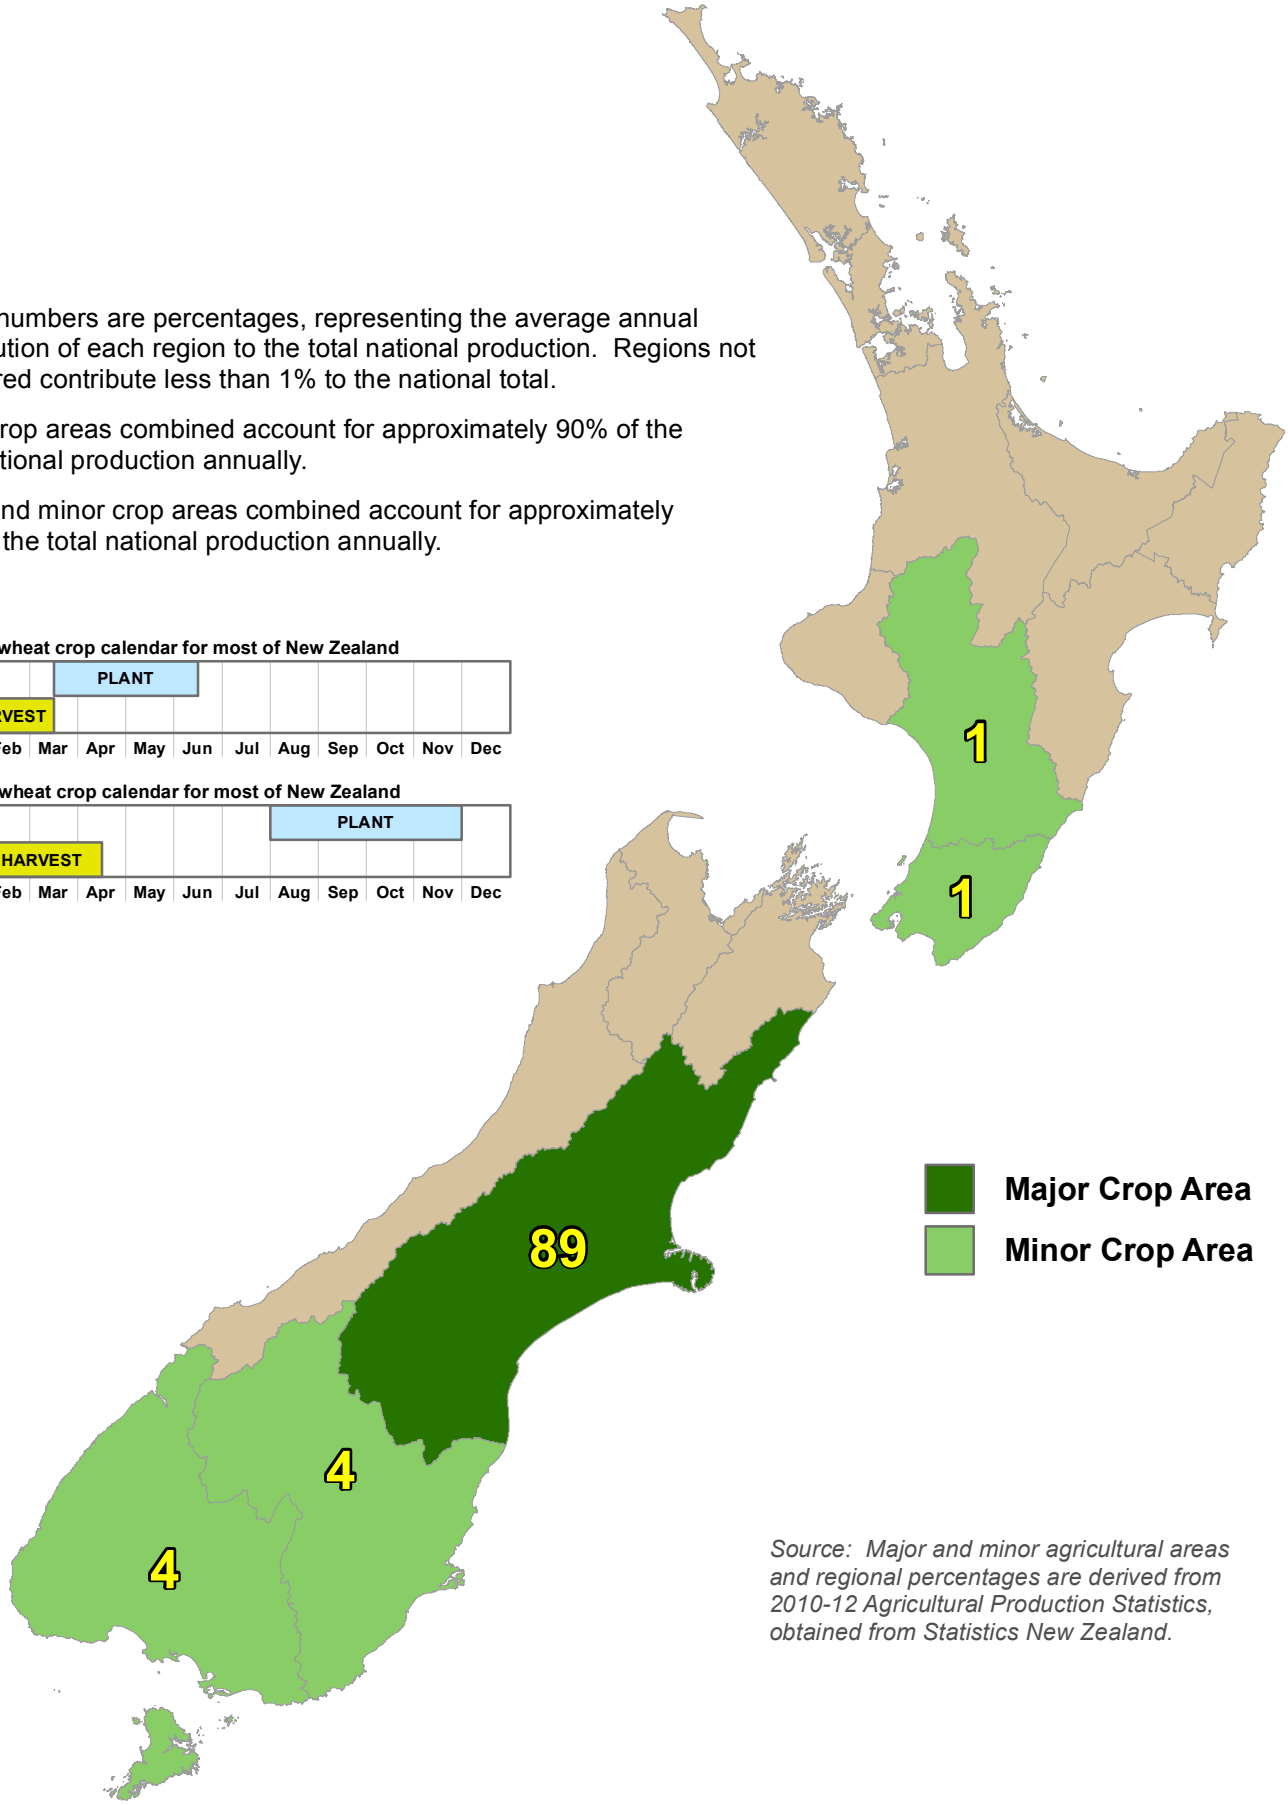
- Yellow numbers are percentages, representing the average annual contribution of each region to the total national production. Regions not numbered contribute less than 1% to the national total.
- Major crop areas combined account for approximately 90% of the total national production annually.
- Major and minor crop areas combined account for approximately 99% of the total national production annually.

Winter wheat crop calendar for most of New Zealand



Spring wheat crop calendar for most of New Zealand





Source: Major and minor agricultural areas and regional percentages are derived from 2010-12 Agricultural Production Statistics, obtained from Statistics New Zealand.

This product was developed by the USDA Office of the Chief Economist (OCE) World Agricultural Outlook Board (WAOB).
