State: Indiana

zipcode: 46115

Question1: NO MORE FARM SUBSIDIES

Question2: NO MORE FARM SUBSIDIES

Question3: NO MORE FARM SUBSIDIES

Question4: NO MORE FARM SUBSIDIES. Farming is a business, and not supposed to be a welfare system. Corporate farms are fleecing Americans through the farm subsidies system. Pay outs to farmers NOT to grow some things while growing others simply is a powerplay led by the politicians. Enough of this.

Question5: NO MORE FARM SUBSIDIES. Work with universities etc. in helping to develop new technologies, etc.

Question6: Reinststitute new or former products -- for example hemp.

Also, wake up to the benevolence of marijuana, and to realize its vast benefits (see NORML Web site for information on research not tainted by the Federal government), It IS the #1 cash crop of MANY of our states, and it is NOT the scary horrible drug that the Feds try to make it out to be. The facts stand for themselves if only the Feds will allow the people to see the results of research being conducted, and not stand in the way of even more research simply to help line their own politico pockets by way of confiscating personal property and cash, and falsely beefing up numbers to get more Federal dollars to keep their own jobs. I am for the legalization and guided controls of marijuana as a cash crop which can help our countrie's farmers.
