---

Dear Mr Johanns, Sec. of Agriculture, (who appointed this man?)

I read with complete amazement your e-mail regarding regulating American Milk Prices. You mentioned that retirees (such as myself) can no longer afford milk (?) and you want to regulate the price of milk because you believe you have the power to do so.

SHAME on you, sir, You abuse your office, you appear to not know the meaning of "FREE ENTERPRISE" or even of being an American. Would you like to represent American Retirees as incompetent morons needing Government regulation and supervision to drink milk?

How dare you, sir. I am an retiree and I can buy milk, gas, or rum if I like. I worked hard and earned my retirement. At this time, I do not even draw Social Security but have earned through perseverance and hard work and saving my retirement with only two years of college I paid for myself in my early 40's. As an American Vet of Viet Nam era, I find your e-mail a complete slap in the face to me personally and to me as an American, who can trace her roots to 1748 in this wonderful and free country. I do not need or want the insult of your socialistic CRAP of a bill.

SHAME on you, shame on your offensive and insulting bill.
