As a farmer, investor, I was taught by my grandfather to leave the land better than you found it.. I do not own farms to take the money elsewhere, I reinvest it back into the land.. as an investor (thats the way its headed) I have very little incentive to terrace , tile , build pond, waterways, I feel we should do two things very prominent in agriculture

FIRST. GIVE OPERATORS INCENTIVES THAT DO NOT APPLY TO INVESTORS, SUCH AS TAX CREDITS, HOMESTEAD INCENTIVES, THIS WOULD INCLUDE TAX INCENTIVES TO YOUNG OPERATORS, STARTING INTO THE BUSINESS AND SHOULD BE AGE RELATED..45 YEARS AND YOUNGER, LOAN INCENTIVES, RE TAX INCENTIVES, EQUIPMENT OWNERSHIP INCENTIVES, AND CONSERVATION ADVANTAGES AND INCENTIVES.. NOW ON TO INVESTORS,

SECOND, GIVE THE INVESTOR TAX INCENTIVES TO REINVEST INTO THE LAND. 20% HIGHER DEDUCTIONS FOR CONSERVATION MONEY SPENT ON THE FARM . IT HAS TO BE SPENT ON PERMANENT IMPROVEMENTS SUCH AS TERRACES, PONDS, TILING, AND WATER CLEANSING PLANS,, IF THEY TAKE THEIR MONEY AWAY AND NOT SPEND IT ON THE LAND , THEY GET NO TAX INCENTIVES AT ALL. WE HAVE TO DIRECT THE GOVERNEMENT MONEY BEING GIVEN TO INVERSTORS BACK INTO LONG TERM INVESTMENTS FOR CLEAN WATER AND SOIL EROSION.. THAN GOD FOR THE CONSERVATION RESERVE PROGRAM LOOK WHAT IT DID TO CLEAN OUR RIVERS , STREAMS AND POINDS,, AMEN THANK YOU RANDAL VARDAMAN FARM BOY,, OWNER, INVESTOR , AND CONSERVATIONIST
