Question2:

Question3:

Question4: Continue to fund CRP at a competitive level that encourages farmers and landowners to be stewards of our natural resources. Target increased set-aside acres for Minnesota and Iowa, where price provisions of recent CRP models have been a disincentive to enrollment. Continue to fund and expand riparian strip acreage for wildlife habitat and improvement of our water resources.

PHEASANTS (quail, and other assorted game and non-game wildlife)
FOREVER!!!

Question5:

Question6: Make bio-diesel and ethanol priorities to decrease our dependence on petroleum. Provide incentives for both producers and end-users of these fledgling industries until they are able to directly compete with "Big Oil".
