Question1:

Question2:

Question3:

Question4: By conserving and expanding natural habitat,such as forests, wetlands,and grasslands.To keep spotsman coming to rural america spending money on small town businesses that might go under w/o having wildlife around. keep CRP fields ubundant. CRP fields help rejuvenate the soil, so less fertalizers will be needed on the new crop grown where the grass was. That means less chemicals runing into the water. All species of wildlife flurish in the tall grass.

Question5:

Question6:
