zipcode:

Question1: Perhaps if farm land can not be developed, must be used for agricultural purposes with no building on the land of structures unless they are needed for the agricultural development of the land, then the value of the land should remain or diminish to reasonable levels.

Question2: Number 1, place high tariffs on products we import!!! We can use food as ransom for oil and we should. It's about time.

Question3:

Question4: Continue with the crp program. this is a great program to give the farmer additional funds and to maintain the rural look of our country. the increase of wildlife due to this program is phenomenal.

Question5:

Question6:
