State: Alabama

zipcode: 36832

Question1:

Question2:

Question3:

Question4:

Question5:

Question6:

In general, expand the energy title in the 2007 Farm Bill.

- 1)Accelerate commercialization of technologies for conversion of cellulosic biomass to fuels, electricity, hydrogen, chemicals and other products by funding scale up of emerging technologies.
- 2)Increase and broaden funding for bioenergy and bioproduct R & D.
- 3)Provide incentives to stimulate new markets for biomass. For example, use of CRP land without reduction in payments, and tax credits for co-firing any type of biomass with coal to produce electricity.
- 4)Use government policy to increase the use of biobased products and reflect their societal benefits.
