zipcode: 19380-2329

Question1: If a policy is found to have unintended consequences it should be addressed by funding adjustments to the affected farming sectors.

Question2: Farmers should be encouraged, and assisted to inoviate.

Programs that provide assistance in Start up costs,improving use of new technology,marketing and rapid transport of product to consumers shuold be made readily available.

Question3: Assistance should be based on ecomonic conditions in the area of the farm, the potential market for it's produce, and the necessary requirements to maintain ahealthy enviornment.

Question4: Any policy should include provisions to protect water sheds, provide clean air and open space.Appropriate funding policies should be implemmented to allow for supporting forest land(public/private), wildlife habitat, hunting and fishing.

Question5: Federal assistance should be available for new technology, transportation etc in all rural communities

Question6: Research should have the highest priority
