Question4: I live in a rural area. the mentality around here is - we'll take the money, but the hell with the gov't. there is uncontrolled manure all over the area. need some teeth in the regs to force the farmer? (hog, chicken operators) to do the right thing. they'll promise everything to get the permits and then thumb their noses at everyone. need enforcers around here. and I'm guessing it's the same elsewhere.
