FirstName: charles

LastName: deichman

Address1: 501 n. washington

Address2:

City: shelbyville

State: Missouri

zipcode: 63469

Question1: The cause is more a lack of 'fully competitive' markets and subsequent low prices for ag production! Ample detail on my comment is available. If you want, I would like to give more.

Thanks for this opportunity, C.LeRoy Deichman

Question2: A Full commitment to Energy Independence can offer 'high value' markets for all we can produce!!

I would like to outline the specifics, if you want.

Thanks for this opportunity,

C.LeRoy Deichman

Question3: 1.Establish meaningful caps.

2.Fully communicate the Opportunity, enabled by our God given photosynthetic capability, to produce clean renewable energy from sunlight and carbon dioxide!

If you want ,I would like to outline the specifics.

Thanks for this opportunity,

C.LeRoy Deichman

Question4: By appropriately incentivising the process of removing carbon dioxide from our environment and converting into clean, renewable fuels.

If my comment fails to communicate the connecting of the dots, let me know, so we can intelligently discuss and interpret the application of the comment.

Thanks for this opportunity,

C.LeRoy Deichman

Question5: By fully facilitating the opportunity available to Rural America, enabled by the coupling of the Clean Air Acts/Our demand for liquid energy/our God given capacity to convert sunlight, carbon dioxide and jobs into clean, renewable energy.

If you want, I would like to outline the specifics.

Thanks for this opportunity,

C. LeRoy Deichman

Question6: Add non food energy to agriculture's mission.(Add fuel to food and fiber.)Propose and support the Adoption of Energy Independence as Our Goal

I would like to outline specifics, if you want.

Thanks for the opportunity,

C.LeRoy Deichman
