Question1: Stop subsidising farmers in paying to not grow crops. This is wrong and doesn't invite competition which is the American Way.

Question2: Yes, but not by giving them tax dollars to lower their price so they can export at a profit.

Question3: Paying farmers to not produce is wrong. Let competition take over and let's give free enterprise a chance.

Question4: FArmers are very conseritive as they want the best for thier land so they protect their land without the government telling them they must they must abide by so many rules.

Question5: The government experimental farms have proved to be very effective. They give advice on the latest methods and the farmers will continue to use this service.

Question6: Yes, this will be helpful.
