Question1: I am presenting my objections to the USDA AMENDMENT PROPOSAL SENATE BILL 1139-PAWS. As a small breeder of cats, the rules put forth in this bill would make my breeding program impossible. This is not a money maker for me. It costs thousands a year in feed, vet bills, and show expenses. The hobby breeder MUST NOT BE penalized in this way. I understand the need to attack puppy/kitten mills, but this bill would affect the 2 litter a year breeder as well as the purebred rescuers who find, foster and place or return purebreds that have been lost or dumped.

You must make some sort of distinction between the hobbieist, not-for-profit and the for-profit organizations.

Thank you,

Sharon Demuth
