Question1: Remove the capitalization of program benefits into land prices.

Question2: Remove any restrictions on American agriculture.

Question3: Remove farm subsidies from the budget.

Question4: Educate the farmers and ranchers to the idea that what's good for the environment is good for them as well.

Question5: Discontinue programs and you will help the people.

Question6: The more you cut, the more you will succeed. Let market forces decide--not government bureaucrats.
