Question1: An enforceable payment limit of not more than \$200,000 per farmer [and spouse] should be enacted.

Question2: More dollars should be spent on research on crops like Hard White Wheat that are seeing increased world demand.

Question3: An enforceable payment limit of NO MORE than \$200,000 per farmer [including spouse].

Question4: Proactively address the 07 and 08 CRP contract expirations. Notify CRP contract holders NOW that they can re-enroll for 10 years up to 50% of their current contracts [07 and 08 expirations] under the terms of their current contracts. The balance of their contracts must be bid based upon the terms in effect at time of the bid. This helps farmers with future planning and assures sportsmen, etc. that CRP's conservation initiatives will not disappear. Accept maximum amount of acres into each signup.

Question5:

Question6: Maximum emphasis should be placed upon renewable energy opportunities in agriculture that will be economically viable WITHOUT taxpayer subsidies.
