zipcode: 12498

Question1: The USDA should provide start-up help to organic farmers and aid farmers in the transition to organic farming.

Question2: Organic agriculture is the fastest growing sector of agriculture. Demand will continue to increase. The USDA should enhance US farming competitiveness by promotin organic agriculture.

Question3:

Question4: Policy should promote replacement of fertilisers, antibiotics and chemicals, with their disastrous environmental results, with sustainable agriculture, especially organic farming.

Question5: Encourage family farms. Remember that the USDA serves the people, not just the giant agribusiness corporations.

Question6:
