Question1: Work to preserve 'family' farms. Do not encourage giant agrabusiness with practices that overuse chemicals.

Question2: Concentrate on organic and GMO-free foods. Go for quality produce.

Question3: Encourage family farms.

Question4: Reduce pesticide use. Studies show pests are still present in large numbers in spite of 50 years of chemical use.

Encourage integrated pest management techniques, organic farming.

Question5: Reinvest in railroads.

Stop supporting super Agribusinesses.

Question6: Encourage organic. Discourage GMO foods. Discourage chemical and pesticide-laden food growth.
