Address2: 82-1250 Kiai Rd., Captain Cook, HI 96704

City: Kealahou

State: Hawaii

zipcode: 96704

Question1: Farm loans backed by the Government should be readily available to small farmers.

Question2: Move toward Organic practices. Other countries do not use pesticides to the degree we do in this country. They are feeding the land not killing it.

Question3: Farm program benefits should go to farms that are working toward the organic method. The Government needs to support the small farmer FIRST!

Question4: Absolutely! America better get on the bus to cleaner air and water. It is a small world and if we are to be successful we need to support organic farming methods.

Question5: Yes. The Government needs to spend more money developing new technologies and aiding States in building new infrastructures.

Question6: This area is very important to those of us that have organic farms.

This should be a #1 priority!
