Question1: Open and free trade. We produce the best products in the world and we should be able to sell them abroad without all the red tape.

Question2: More help for the small farm to survive.

Question3: Plug the loopholes and limit payments to non-farm farming companies and limit the payments to everyone.

Question4: More incentives and less regulations so more marginal land can be with held from production.

Question5: Promote the small family farm.

Question6:
