Secretary Johanns. . . as I understand it, public meetings are scheduled for various parts of the country in order to hear public comment regarding the NEW Farm Bill. It would be greatly appreciated if the Florida area would be considered for such a public meeting. Meat goat and sheep producers are just as concerned as other livestock meat producers. The demand for American fresh meat goat and sheep is on the rise even though the numbers of farms are decreasing. It's time these two groups were also heard. Thank you for your consideration. Susan C. Beddy, Thunderbolt Sheep Farm, Quincy, FL.
