Question1:

Question2:

Question3: It would help if Farm Subsidy could be renamed to reflect what they are, funds to stabilize the production of food and fiber.

As was demonstrated at the Louisville Forum, there is a need to educate the public that USDA does more than support the Farmer. Members of Congress would look at the USDA budget in a different way if their Constituents better understood where this money goes.

The Farm Bill Forum, Louisville Ky. was a truly amazing thing to witness. The way I think Government should work.

Thanks Secretary Johanns.
