Question1:

Question2:

Question3: You have said that everyone in agriculture should have a voice in the new farm bill. While that is true, it is insufficient. In fact, every tax paying citizen should have input to the bill. Subsidies have been driving up the cost of living for everyone, driving huge surpluses, (sugar, dairy products) and hurting us in competing with the rest of the world in every market. Subsidies should be reduced, and in many cases, phased out. There is nothing sacred about the family farm and large agribusiness should compete on its own merits.
