Question5: My Mother inherited a farm in 1991. She has 26 acres in the CRP program that is not easily accessable with row crop mashinery. This land is perfectly suited for this type of program. If the CRP program is discontinued we will have to do major dirt work there in order for the land to be farmed. I am sure there are many, many other instances where this program is beneficial to land that, because of location, or various reasons would be much better suited for this type of program.
