City: Melbourne

State: Florida

zipcode: 32934

Question1: The farm bill should be abolished. Too costly for the American consumer.

Question2: Grow our own food & stop giving it away to foreign countries.

Question3: Stop paying farmers for not producing food. Plowing under good food.

Question4: Go back to the early & mid 20th century and produce food like it was then. Let the market drive the price.

Question5: Keep the large developers from buying up all the farm land & forever losing the land for farming.

Question6: Keep all pesticides and non-organic fertilizers out of the farm lands. Today's foods are loaded with pesticides & chemicals which are hazards to the people eating the foods.
