Question1: You should let the 2002 Farm Bill expire and not enact any new bill. The sooner the USDA gets out of farm price supports and income stabilization and lets the free market work the better.

Question2: Do not renew the five year Farm bill legislation.

Question3: Redistribution is morally wrong (Exodus 20:15).

Question4: Define or clarify property rights where there is a need.

Question5: They should not provide any assistance. Again, redistribution is morally wrong. Charity is the answer.

Question6: The free market has the most flexibility.
