Question1: interest free loans on working farms

Question2: have enough to feed ourselves and let free trade do the rest

Question3: get rid of rich superfarms and make farming more affordable to small landowners who can only operate at a loss now and are therefore developing their land.

Question4: cost it in.... environmental damage has a price add to the farms just like everything else and let people pay the REAL cost of their food ... = environmental degradation fixed

Question5: STOP URBAN SPRAWL! People move to the country to be in the country - why replicate NYC when we already have one to many NYC's?

Education and other essentials need to be kept at national standards.

Not sure how to do this cost effectively.

Question6: taken out - get rid of the pork
