Question1: I would favor ending subsidies to all farmers and end all farm price supports including milk and sugar.

Question2: Work to insure trade barriers put in place by other countries to the sale of US farm products overseas are reduced or eliminated.

Question3: Eliminate all farm subsidies and assistance other than those programs designed to cover losses caused by the destruction of livestock (mad cow disease) or crops (contageous crop disease) that happen by government action to protect the food supply.

Question4: Education and tax policies designed to help farmers reduce polluting runoff and other externalities that may harm the enviorment.

Question5: Maintain and enhance quality schools in rural areas that would allow students to obtain a quality education.

Question6: Greater coordination of research between government and colleges and US trade policy and foreign governments and consumers.
