Question1: Eliminate the farm price support program.

Question2: Allow new and existing farmers to compete freely based on demand, without subsidies and income support programs.

Question3: Allow farmers to compete freely based on demand, without programs such as crop insurance.

Question4: Eliminate support, but allow for natural, time tested methods of stewardship.

Question5: Make it possible for them to buy farmland at affordable prices.

Question6: Let the consumers chose what they want to eat, and reject genetically engineered crops if they don't want them.
