zipcode: 58504

Question1: provid low interest money to only the farmers that live and work the land. 1 or 2 % money.

Question2: First lets stop being the nice guy. No more giving our grain away. We need to charge for our product.

I believe it will be the small farmer raising special crops chemical and fertilzer free.

Question3: I am sorry but I do not know how to be fair on this question.

Question4: I do not have any CRP land but I do believe this is the most important program we have to protect our land, air,water and wild life including farmers in need of a stable income. It is our responsibility to protect our envierment. CRP is a healthy and alive program. Lets keep it that way.

Question5: We have to contral the cost of fuel whict effects the cost of new technologies. Let do more drilling in North Dakota.

Question6: I believe the organic and specialty corps are our future.

Let make sure there is some help for these speical farmers rasing this type of crop.
