Question1:

Question2: Americans have paid billions for contradictory and damaging farm programs, such as federal dairy policy. Washington encourages large dairy farms to create the very same surpluses that the government is stuck with buying and storing! We also pay over double the world price for butter alone. Wake up!

Question3: Quit subsidizing millionaire farmers. Americans have paid billions for contradictory and damaging farm programs, such as federal dairy policy. Washington encourages large dairy farms to create the very same surpluses that the government is stuck with buying and storing!

Question4:

Question5: Quit subsidizing millionaire farmers. Let the free market work. If they can't grow a profitable crop, so be it. Let them not grow it.
