Question1: I find it ludicrous that any kind of government support program for farmers pays out 80% of funds to 20% of the farmers (pork barrel politics at its finest)! The rich and big continue to get richer and bigger. My overall view of the farm subsidies is the government should get out of the process altogether and quick artificially inflating land and rent values. (I am currently farming 2000 acres of cash crops.) If anyone would like to speak directly with me about my views, I'd be more than happy to share my thoughts.
