Address2:

City: Winston Salem

State: North Carolina

zipcode: 27102

Question1:

Question2:

Question3:

Question4: As our population grows, and once rural areas become urbanized, the focus on Urban Forestry becomes more critical. Urban Forestry aids developed environments by filtering pollutants, reducing noise, cooling our cities, and generally providing a more habitable environment.

The Farm Bill needs to focus more on Urban Forestry, and the benefits of trees in urbanized areas.

Question5:

Question6: More research needs to be done on successfully raising trees in urban areas. Species selection, soils, pests, planting and pruning techniques all need much more work (and funding!)
