USDA FARM BILL FORUM

“How should farm policy address any unintended consequences that discourage the next generation of farmers from entering production agriculture?”

Consequences

1. Uneducated generation
2. Land Shortage
3. Specialty Farms
4. Low Inheritance Rates

Solution

1. Educate
 - a. Education and Research are used to develop or invent new ways of producing agriculture products with fewer resources meaning less land.
 - b. Support programs such as school enrichment, 4-H, and FFA
 - c. Create or use grants and/or scholarships
- 2 ● Land protection policies
- 3 ● Land protection policies
- 4 ● Better benefits for farm families
