Address2:

City: Evansville

State: Indiana

zipcode: 47712

Question1:

Question2: Remove Sections 10301, 10302, and 10303 from the Farm Bill that is upcoming in 2007. The interstate movement of animals and animals in foreign commerce was never sent to committees to be given proper consideration. The economic impact places many families in the welfare category. Thousands of dollars are costing many taxpayers. Funds should be used for Homeland Security, Fema, rebuilding the Gulf coast, etc. Big government is not government of the people. Let the local folks decided what is good, moral, and cultural rather than being dictated by bureaucrats that make moral decisions for the taxpayer. Our rights as citizens are being stripped away daily by lobbyists and special interests. Good government should start with counties first and not mandated by representatives that only want to be elected. Please remove these sections because it violates our rights and strips our liberties. Thank You.
