zipcode: 19130

Question1:

Question2:

Question3:

Question4: Urban and community forestry are important in improving air quality and quality of life for city dwellers and rural farmers alike.

Reducing toxic gasses in the air, increasing tree cover and lowering urban heat islands are all positively affected by Urban and Community forestry initiatives. Please continue funding UCF

Question5:

Question6: Help our domestic agriculture market expand with new products and activities or we will see our market share decline as other countries capitalize on the attributes that americans are finding more and more important: Non GMO labeled fods, organic farming, sustainable farming practices
