Address1: 5135 El Cemonte Ave

Address2:

City: Davis

State: California

zipcode: 95616

Question1:

Question2:

Question3:

Question4: Preservation of agricultural and forested land adjacent to populated areas has obvious benefit to the asphalt and roof heat islands in cities. In addition, the release of oxygen and absorption of carbon dioxide by crops provide obvious benefits to humans living nearby. Additionally, land will absorb rainwater, preventing flooding of urban areas and refreshing the aquifer. All these are in addition to pleasant vistas, maybe not calculable, but adding to the human experience.
