Question1: I think program benefits should include land prices because land prices are so high and the money a farmer can make so low it is impossible for a young person to start out in farming here in maine

Question2: we should use more of what we produce and less of import. imports of foods has pushed farmers out of business

Question3:

Question4: give more support to local conservation districts and FSA offices dont close them.

Question5:

Question6: more money to colleges to do the research
