Question3:

Question4:

Question5:

Question6: I am writing to request that serious consideration be given to removing sections 10301, 10302, 10303 from the 2007 farm bill. these sections: put a serious economic strain on thousands of families in the U.S. ; eliminate the only source of income for many of these families; violate NAFTA; seriousle discriminate against a segment of the citizens; creates an enourmous drain on an already failing economy; uses dollars that could be appropriated for hurricane relief, food stamps, providing shelter-food-clothing for the poor; free up lawenforcement, courts, dept.of agriculture, and other government agencies to resolve the crime in our country. The sections eliminate a \$100,000,000, industry from our economy. There are no advantages to having these sections in the farm bill. These sections were added administratively (illegally) and were never heard before committee. They were inserted to PACIFY animal rights organizations, who line the pockets of politicians. Please do what is fair, right, and correct for the citizens of thid country and remove sections 10301, 10302, 10303 from the 2007 farm bill. Sincerely,
Jerry Leber
