Question1: Make available grant programs to improve land, purchase land, and equipment. Make available free educational opportunities teaching better marketing strategies and precision ag. so young farmers can stay on the farm.

Question2: So much to list so little space. THE BOTTOM LINE:

- Improve Global Relations
- Research Global Demands
- Assure Food Safety

-Make States Compete For Trade Not Just The Nation

Question3: Distribution payments are not offered to all. Only those farms or farmers that gross less than \$200,000 of on farm revenue.

Watch over closely so that it is not taken advantage of.

Question4: Give more money toward stewardship, under this offer more in the way of precision farming grants/ loans, rotational grazing grants/loans, and make overall programs more useful

Question5: Offer more tax breaks for those companies wanting into rural areas, lower interest rate on loans for these companies. Take percentage of the taxes collected and invest that in a long-term technologies improvement program.

Question6: Forget about organics. Once the new wears off and the consumer decides not to pay extra the ride is over! Focus more on renewable energy, bioproducts research, and market development.
