Question1: Federals have chased all Farmers from many Communities  
Outregous taxes, unbelievable EPA, DEQ, DNR, FDA requirements, hourly  
increasing utility costs. Our political leaders have become so consumed  
with their own financial gain they have lost sight of the American  
People. (farmers). We need to encourage new farm development. we need to  
stop food companies & FDA from importing the poisons we buy in our  
grocery stores.

We need to stop our president from sending our children to war for his  
family's selfish greed. We should use every space of available land and  
produce every type of renewable energy available, every type edible food

(Corn, Soybeans, Sugarbeets, Potatoes)

If cabbage was grown mostly in the middle east, our troops would not be  
there. If our economy continously forces USA to a service economy we  
will soon be the same as Argentina, Incapable of taking care of  
ourselves. Our manufacturing insustry has already been sold out by big  
business and political leaders. Those companies will soon find out what  
it is like to live in poverty. Big Business have sold the heart, soul  
and backbone of the USA economy. Please do not let this happen to the  
farm industry!

Question2: Stop CAFTA, NAFTA in their tracks. Instead of USA buying low  
cost poison to feed our families. Let USA continue to grow our own  
healthy food products so the strength of our great nation continues to  
grow and prosper. YOU ARE WHAT YOU EAT, or in the computer industry  
GARBAGE IN GARBAGE OUT, how about Biblical Terminology, YOU REAP  
WHAT YOU SOW!!

Question3: Take all the money our president has made in OIL during his  
term in office and distribute it evenly to every person who owns a FARM  
TRACTOR and 2 acres of property..

Question4: MANDATORY REQUIREMENTS OF ALL NEW FARM EQUIPMENT PURCHASED /  
SOLD IN THE USA TO OPERATE FROM RENEWABLE ENERGY SOURCE.  
SOY-DIESEL, BIODIESEL,  
ELECTRIC, METHANE GAS

Question5: Government attention should be focused on investing in the  
infrastructure in rural America!!!!!!

Question6: Renewable Energy and bioproducts and new uses for farm  
products generally; expanded basic and applied research; domestic and  
foreign market development; and similar activities. THE ANSWERS ARE IN  
YOUR QUESTIONS. WHY DO FEDERAL ORGANIZATIONS OVERLOOK THE OBVIOUS???????
