Question1:

Question2:

Question3:

Question4: I concur that policy could be tied to enviromental benefits.

A program such as the FS's Urban and Community Forestry Program has documented results of how trees benefit the environment. This program is one of the best programs the FS has that reaches the grass roots, has dedicated research on trees and with a matching \$ component gets a great deal of benefits from the federal dollars spent. This program deserves attention and continued funding.
