

Dear USDA:

U.S. OFFICIAL MAIL

I am aware that the United States Department of Agriculture is gathering public input for the development of the 2007 Farm Bill. Knowing that you take public opinion seriously, I feel confident that my input will influence your recommendations for the 2007 Farm Bill.

On the USDA website there are a series of six questions that you invited the public to respond to. I chose to respond to question # 3 where you ask the following question:

*How should farm policy be designed to effectively and fairly distribute assistance to producers?*

**Here is my response:**

Provide more support to small family farmers and to young farmers as an incentive to enter into the agricultural industry.

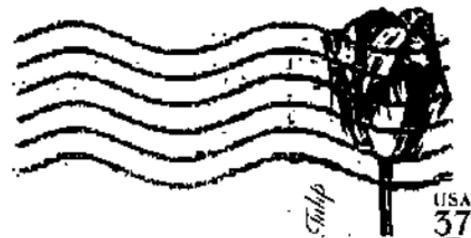

Thank you for collecting and considering public input on this very important subject.

Sincerely,

DCans?
