Question1: Federal Tax breaks for small farmers would be beneficial as well inheritance tax breaks.

Question2: Stand firm on the importation of foreign goods if other countries won't accept ours.

Question3: Smaller farms near highly populated regions should get program preference. These small farms are fading fast, and generally are forced out of business by numerous factors.

Question4: The better you take care of your land the more benefits you should receive or be eligible to receive.

Question5: Although often remote, farms depend on technology as much or more than more urban areas, not just for convenience but for business.

Question6: More support for sustainable ag practices and for those who use nutrients they generate.
