Question1: Encourage organic fruit & vegetable farming & subsidize such potential farms

Question2: The world over - lots of people believe in better treatment of the animals. Here in the USA, we like to think of ourselves as generous, humane and caring. We need to treat farm animals better - and punish those who don't. The horror stories abound! I'd like to see my gov't protect the animals involved.

Question3: Stop giving money to those who show no concern for the animals' welfare.

The de-beaking, branding, and other mutilations are unconscionable.

Question4: Encourage organic produce farming, less pesticides for the environment.

Question5: Efficient organic farming methods should be taught.

Question6: organic farming. stop bad publicity world-wide by encouraging and enforcing animal welfare standards
