Question1: make operating loan assistance and assurity less complicated and more flexible with added incentive programs for young farmers who are becoming fewer in numbers because of lack of economic stability in agriculture

Question2: level the playing field for american farmers by requiring trading parteners to adhere to the same requirement of food safety and production requirements which are put on american farmers

Question3: Do more to identify real needs of farmers in different production areas and commodity production ability instead of lumping all producers of a certain commodity into one program availability

Question4: By requiring trade parteners and WTO members to abide by the same stringent requirements put on american farmers as related to improving eniromental issues

Question5: Continue governments role in incentive programs that help farmers battle the economic difficulty of requirements which adversely affect farmers ability to compete on all levels of prduction and long term assistance needed to compete effectively on the world stage of trade and investment

Question6: Help to open more trade areas and increase logistical aid for all kinds of crops and add more research and development aid to land grant colleges throughout the U.S>
