Question1: In our area CRP rental rates have kept land off the market and out of reach for farmers who would rent the land. We see crp rental rates as much as three times what cash rent would be in this area (southeastern Washington. Take some of the money out of CRP and put it back into production agriculture.

Question2: We need to fund research to the fullest. Now we have the opportunity to help provide energy to offset oil imports. We need to fund the development of renewable energy sources.

Question3: Crop insurance is great for disasters and occasional low prices but we cannot insure ourselves to profitability

Question4: CSP!!! Fund it Fund it Fund it

Question5: Get rid of CRP and give young farmers the tools they need to be profitable and we will revitalize rural america for you.

Question6: Bio fuels and Ethanol have some promise. We need the research to move into the production of these energy sources
